## ESTHETICS

### OUR PROCESS

### A BEAUTIFUL CAREER STARTS HERE

While a student in our 750 facial full-time or part-time program, you will learn the creative and scientific principles behind beautiful skin and professional skin care. Through classroom instruction, demonstrations and clinical practice, you will be taught treatment techniques and services such as facial massage, the use of facial machines, hair removal, advanced treatments and makeup techniques. We will provide you with the technical knowledge along with the customer service skills needed to be successful in a professional Spa environment.

#### PHASE ONE

- Classroom instruction building on:
  - History of Esthetics
  - Skin Physiology
  - Skin Analysis
  - Client Consultation
  - First Aid
  - Infection Control
  - Salon Success
  - Bacteriology
  - Anatomy
  - Facial Techniques
  - Product Knowledge
  - Tools of the Trade
  - Professional Ethics
- While working on live models, you will begin developing hands-on skills and techniques.

#### PHASE TWO

- Build on previous classroom instruction with additional learning on:
  - Hair Removal Techniques
  - Chemistry
  - Facials
  - Cosmetic Product & Ingredients
  - Makeup (Analysis, Consultation and Application)
- Classroom instruction includes building upon Phase One and learning additional techniques in hair removal and skin care including chemical peel & microdermabrasion.
- Build skill level and adapt techniques on clients in our salon-modeled student spa
