BEAUTY INDUSTRY BENEFITS

INDUSTRY STABILITY

Before, during and after a recession, demand for one sort of worker is always persistently strong - those that assist or care for other people. Cosmetology and Esthetics jobs can't be easily automated and they can't be outsourced.

FLEXIBILITY

Beauty professionals often cite flexibility as the biggest benefit of their chosen career. Variety in schedules, working arrangements and job opportunities improve their ability to find the work-life balance that is right for them.

INDUSTRY GROWTH

Population growth and the continued desire among women and an increasing number of men to reduce the effects of aging should continue to drive increases in both employment growth and salon & spa service demand.

Ogle School prepares committed students for rewarding careers in the beauty industry through salon-modeled, student-centered training & development of the highest caliber.

*Licensure rate as reported to NACCAS for the 2021 cohort graduates who took and passed the practical exam
